ABOUT

I'm a results oriented, effective and often unorthodox head of engineering. I take ownership, I lead and I deliver. I have a proven track record of completing projects and delivering working software from start to finish as a team member, a leader and a stakeholder.

EXPERIENCE

Head of Engineering, Talent Clouds

April 2021 — Present 🕒 5 months

Heading all engineering and efforts of the company

- Responsible for all engineering efforts
 - Lead a distributed team of developers
 - Managed partner relationship
